This specification is approved for use by all Departments  
and Agencies of the Department of Defense.

#### 1. SCOPE

1.1 Scope. This specification covers the associated requirements for style RZ140, 16 pin dual-in-line package (DIP) resistor networks. This style is available in all characteristics and resistance tolerances. This specification has two product levels, a high reliability, 100 percent burn-in screened "M" part number level and nonburn-in screened part number "C".

1.2 Part or Identifying Number (PIN). Resistor networks covered by this specification will be identified by a PIN which will consist of the basic number of this specification and a coded number. The PIN will be in the following form:

#### 100 percent burn-in screened network ("M" part number)

<u>M8340114</u>	<u>H1002FA</u>
Associated specification number	Coded number

#### Nonburn-in screened network ("C" part number)

<u>C8340114</u>	<u>H1002FA</u>
Associated specification number	Coded number

The coded number will be derived in accordance with MIL-PRF-83401.
